

**Seminar on GNSS Spectrum Protection and Interference Mitigation
Vienna**

Day One: Tuesday, 06 December 2022

Start	Dur	Session	Subject
		1. Overview	
9:30	0:10		Course Introduction
		2. Introduction to GNSS	
9:40	0:20		How GNSS Works and Applications
10:00	0:10		GNSS Receiver Fundamentals
10:10	0:15		Introduction to Interference
		3. Spectrum Management	
10:25	0:20		Spectrum Management & the ITU
10:45	0:15		Q&A
11:00	0:20		Break
		4. Spectrum Protection	
11:20	0:20		Introduction to Spectrum "Protection"
		5. Interference Detection and Mitigation	
11:40	0:15		Proliferation of GNSS Jammer Devices
11:55	0:15		Interference Detection Concepts
12:10	0:15		Interference Detection and Mitigation and GNSS Jammers
		6. Summary	
12:25	0:05		Summary
12:30			End of Day One Session

Day Two: Wednesday, 07 December 2022

		7. Interference Detection and Mitigation	
10:00	0:10		Day 2 Introduction
10:10	0:20		ICG Activities and its Role in Spectrum Protection and Interference Detection and Mitigation
		8. Summary and Interactive Discussion	
10:30	0:45		Summary and Q&A Session
11:15			End of Seminar
