Participants from China, EU, Japan and Korea (invited)

The Initiative, Purpose and Goal

Initiative

GNSS Applications - for Present and Future

Purpose

Survey GNSS applications that identify challenges and facilitate the development of solutions that serve society, intending to provide assistance, lessons-learned and guidance to GNSS users.

Goal

Issue a research report on
“GNSS Applications for Sustainable Development-Case Studies”

AppSG Meetings and Work Plan

- (1) AppSG meetings shall be held, face-to-face or virtually, on a regular basis. Some dates on international conferences and events can be utilized for the regular or additional meetings.
- (2) Each meeting shall be arranged by the current member state in rotation and this role will be shared to the other member states gradually.
- (3) AppSG members intend to participate in important GNSS conferences and events to promote GNSS application development and obtain information about trends in GNSS applications. AppSG also intends to support the UNOOSA GNSS Application Workshop.

AppSG - Near Term Plan
