

POLAND**National mechanism:**

The Republic of Poland has not yet adopted any national legally binding mechanism on space debris mitigation, but it aligns itself with the guidelines of the United Nations.

Since the process of preparing a national space-related law has been started, an ongoing discussion is taking place regarding potential inclusion of specific requirements of debris mitigation standards in the basic act.

Description:

None.

Applicability:

None.

Relation to international mechanisms:

The Republic of Poland fully adheres to such mechanisms as Space Debris Mitigation Guidelines of the Committee, IADC Space Debris Mitigation Guidelines, ITU Recommendation ITU-R S.1003, European Code of Conduct for Space Debris Mitigation, ISO Standards (24113: Space Systems – Space Debris Mitigation Requirements; and others).

Link to other national mechanisms:

None.

References:

None.
