

INTERVENTION OF THE INDONESIAN DELEGATION
Agenda 5: United Nations Programme on Space Applications

Madame Chair,

With regard to the activities of the UNPSA in 2019, Indonesia views that the workshops, training courses, seminars and meetings under the United Nations Programme on Space Applications are of high importance to increase the capability of the developing countries and to assist them in mastering, developing and using space technology for their national interests.

Over the last year, Indonesia has benefited from the many activities of United Nations Programme on Space Applications among others United Nations International Conference on Space-based Technologies for Disaster Risk Reduction – "A Policy Perspective", Beijing, 11-12 September 2019.

Madame Chair,

In this opportunity, we would like to express appreciation to UNOOSA and other partners in the conduct of these programs.

We also thank the United Nations Regional Center for Space Science and Technology Education in Asia and the Pacific in China for its support for the capacity building of Indonesian researchers. Other two researchers are pursuing a doctoral program in Beihang University.

I thank you
