COMMITTEE ON THE PEACEFUL  
USES OF OUTER SPACE

INFORMATION FURNISHED IN CONFORMITY WITH GENERAL ASSEMBLY  
RESOLUTION 1721 B (XVI) BY STATES LAUNCHING OBJECTS INTO  
ORBIT OR BEYOND

Letter dated 23 June 1967 from the Permanent Representative  
of the Union of Soviet Socialist Republics addressed to the  
Chairman of the Committee on the Peaceful Uses of Outer Space

I have the honour to transmit herewith to the United Nations Committee on the Peaceful Uses of Outer Space information concerning the following objects launched into orbit around the earth or into outer space by the Soviet Union during the period 27 April to 17 June 1967: "Cosmos 157"- "Cosmos 167", "Molnia 1" and "Venera 4".

(Signed) N. FEDORENKO

INFORMATION

concerning launchings of space objects submitted by the Union of Soviet Socialist Republics to the United Nations Committee on the Peaceful Uses of Outer Space

| Name of satellite or station | Purpose of launching  | Date of launching | Basic characteristics       |             |                                |
|------------------------------|---|-------------------|-----------------------------|-------------|--------------------------------|
|                              |   |                   | Perigee (km)                | Apogee (km) | Inclination of orbit (degrees) |
| 208. "Cosmos 157"            | Investigation of the upper atmosphere and outer space   | 12 May 1967       | 202                         | 296         | 51.3                           |
| 209. "Cosmos 158"            | Investigation of the upper atmosphere and outer space   | 15 May 1967       | Circular orbit about 850 km |             | 74.04                          |
| 210. "Cosmos 159"            | Investigation of the upper atmosphere and outer space   | 17 May 1967       | 380                         | 60,600      | 51.83                          |
| 211. "Cosmos 160"            | Investigation of the upper atmosphere and outer space   | 17 May 1967       | 142                         | 205         | 49.6                           |
| 212. "Cosmos 161"            | Investigation of the upper atmosphere and outer space   | 22 May 1967       | 205                         | 343         | 65.7                           |
| 213. "Molnia 1"              | Further development and experimental operation of a system of long-range two-way television and telephone-telegraph radio-communication | 25 May 1967       | 460                         | 39,810      | 64.8                           |

| Name of satellite or station | Purpose of launching | Date of launching                                     | Basic characteristics |             |                                |      |
|------------------------------|----------------------|---|-----------------------|-------------|--------------------------------|------|
|                              |                      |   | Perigee (km)          | Apogee (km) | Inclination of orbit (degrees) |      |
| 214.                         | "Cosmos 162"         | Investigation of the upper atmosphere and outer space | 1 June 1967           | 201         | 280                            | 51.8 |
| 215.                         | "Cosmos 163"         | Investigation of the upper atmosphere and outer space | 5 June 1967           | 261         | 616                            | 48.4 |
| 216.                         | "Cosmos 164"         | Investigation of the upper atmosphere and outer space | 8 June 1967           | 202         | 320                            | 65.7 |
| 217.                         | "Venera 4"           | Scientific research in outer space                    | 12 June 1967          |             |                                |      |
| 218.                         | "Cosmos 165"         | Investigation of the upper atmosphere and outer space | 12 June 1967          | 211         | 1,542                          | 81.9 |
