**Committee on the Peaceful
Uses of Outer Space**

Legal Subcommittee

Fifty-sixth session

Vienna, 27 March-7 April 2017

Item 15 of the provisional agenda*

**Review of international mechanisms for cooperation
in the peaceful exploration and use of outer space**

**Responses by Member States to the set of questions
provided by the Chair of the Working Group on
International Mechanisms for Cooperation in the Peaceful
Exploration and Use of Outer Space**

Note by the Secretariat

In accordance with the recommendations of the Working Group at the fifty-fifth session of the Subcommittee in 2016 (A/AC.105/1113, Annex III, para. 9), member States of the Committee and international intergovernmental and non-governmental organizations having permanent observer status with the Committee were invited to provide comments and responses to the questionnaire, as contained in the Report of the Legal Subcommittee in its fifty-third session, (A/AC.105/1067, Annex III, para. 10).

The present conference room paper contains the reply by Pakistan to the set of questions.

Review of international mechanisms for cooperation in the peaceful exploration and use of outer space

Pakistan has a strong element of international cooperation in the development of its space programme. At present, Pakistan has entered into many bilateral and multilateral cooperation Agreements/MoUs for collaboration in space activities and to contribute in the projects related to the peaceful exploration and use of outer space. Pakistan has ratified five United Nations space treaties and is a member of various organizations; such as Asia Pacific Space Cooperation Organization (APSCO), Committee on Space Research (COSPAR), Asia-Oceania Space Weather Alliance (AOSWA), International Astronautical Federation (IAF), Asian Association for Remote Sensing (AARS), Inter-Islamic Network on Space Sciences and Technology (ISNET).
