

Information furnished in conformity with the Convention on Registration of Objects Launched into Outer Space

Note verbale dated 11 April 2023 from the Permanent Mission of the Russian Federation to the United Nations (Vienna) addressed to the Secretary-General

The Permanent Mission of the Russian Federation to the United Nations (Vienna), in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution [3235 \(XXIX\)](#), annex), has the honour to transmit data on space launches by the Russian Federation in March 2023 and on previously launched space objects that ceased to exist during that period (see annex).¹

¹ The data on the space objects referenced in the annex were entered into the Register of Objects Launched into Outer Space on 13 April 2023.

Annex

Registration data on space objects launched by the Russian Federation in March 2023*

1. In March 2023, the following space objects under the jurisdiction and control of the Russian Federation were launched:

Registration number of space object	Name of space object, launch vehicle and place of launch	Date of launch	Basic orbital parameters				General function of space object
			Apogee (km)	Perigee (km)	Inclination (degrees)	Period (minutes)	
3634-2023-004	Luch-5X, launched by a Proton-M carrier rocket with a Breeze-M upper stage from the Baikonur launch site	13 March 2023	35 795.3	35 757.4	0.1	1 435.6	Relay of information
3635-2023-005	Cosmos-2567, launched by a Soyuz-2-1a carrier rocket from the Plesetsk launch site	23 March 2023	488.8	338.3	97.6	92.7	Intended for assignments on behalf of the Ministry of Defence of the Russian Federation
3636-2023-006	Cosmos-2568, launched by a Soyuz-2-1v carrier rocket from the Plesetsk launch site	29 March 2023	342.9	322.4	96.5	91.0	Intended for assignments on behalf of the Ministry of Defence of the Russian Federation

2. In March 2023, the Russian Federation did not launch any space objects on behalf of foreign clients.
3. The following space object ceased to exist in March 2023 and was no longer in Earth orbit as at 2400 hours Moscow time on 31 March 2023:

2022-116A (Soyuz MS-22): uncrewed descent module landed at a predetermined location on 28 March 2023.

* The registration data are reproduced in the form in which they were received.
